Subject: Issue against Nyara Energy Ltd, (Previously Essar Oil Ltd) Jam Khambhaliya

Reference : Regarding GPCB Jamnagar letter dated 02.07.2019 and letter serial number
----- Gujarat State Pollution Control board Sr No /50/2672 related -----

Sir/Madam,

This is to bring to your notice about one of the most important issue in the history of India. If necessary actions are not taken to correct the series of incidents which are taking place on time to time at our place than India is expected to see another incident like 'Bhopal Gas Accident'.

Such incidents/Accidents/Disasters are never natural. It's mostly due to 'Negligence' in performing once duty.

We, via this letter, are highlighting issues of negligence's and inappropriate or misguiding decisions taken by Nyara Energy Ltd, (Previously Essar Oil Ltd) from time to time to entirely kill a place and its habitats cold bloodedly.

P1
2 SK
Nyara Energy Ltd, (Previously Essar Oil Ltd) has issued a report for extension and send to various villages stating that if anyone have any issues or concerns to it than they should reply before 05.08.2019. Also it is stated in the report that Nyara Energy Ltd, (Previously Essar Oil Ltd) has taken extension in 1996 and followed every rules and regulations which also includes spending of Rs 4000 crores within 5 years for the development of nearby areas. Out of this Rs 75 crores for controlling Air Pollution. Every company has 2% CSR which says that they are spending Rs 75 crore for nearby Villages for Education, Basic Necessasity, Plantation, Medical Facilities and much more, but above all action is only on paper no action taken on around of village.

At the start of company Government Representatives, Collector all came anf gave us confidence that whosoever's land acquisition is done by Nyara Energy Ltd, (Previously Fssar Oil Ltd) will be getting atleast one job per family in the company and it will simultaneously increase employment. This means existing

Central Registry Section

743785

28 AUG 2019

and confirmed employment is replaced by promised employment, but none of employment given to local villagers of land losers.

Naturally nobody is looking for relocation after selling their land to Nyara Energy Ltd, (Previously Essar Oil Ltd). The fact is confirmed and existing Employment is now shifted to unemployment as the promises are not delivered. If we raise our voice or initiate any movement (Andolan) than our voices are brought down by money and mussel power by this big company. They enjoy superiority and power and has chosen not to allow such culture of raising voices to flourish.

Polluted water by company is to be recycled by the company itself. They should have plant for recycling the water. They don't have any such plant. And additionally they are polluting the ground water by dumping such wasted water very deep into the grounds. Due to this culture of company the land water is highly polluted and the land is loosing its fertility and will be of no use for agriculture.

Needless to say those humans cannot drink such ground water now. Therefor Nyara Energy Ltd, (Previously Essar Oil Ltd) is providing water to the residence presently. We do not see this act as a justice or complete solution.

We do not see earthworms in our farms which assists farmers in a natural way to increase feetility in our lands. We do not see birds flying nearby nowadays. There will be lot of other habitats which went unnoticed and are killed by the act of Nyara Energy Ltd, (Previously Essar Oil Ltd).

Also farming is getting worst and impossible due to this noble act by Nyara Energy Ltd, (Previously Essar Oil Ltd).

GPCB has already declared earlier at least two times in its reports that ground water is unfit for drinking and bathing for citizens of the nearby areas. But company has not taken any corrective actions for that.

Other direct side effects of the company's pollution are that we are losing employments even further we are not able to grow in unfertile lands. These lands are of our ancestors who lived here happily and suddenly everything is ending for us as our only source of income is on stake of getting ruined. Additionally deceases are increasing and we will not be surprised if some alarming medical conditions are on the way now.

Nyara Energy Ltd, (Previously Essar Oil Ltd) in their noble acts promised to Government in writing that it will Adopt nearby villages for its complete development. But it has remained on paper and no actions are taken till now. The fact is that even basic facilities are not provided by the company. Its only kept on paper.

We have put up the matter to you and now we expect that proper actions will be taken immediately without any prejudices, delays and red tapis. We are with highly voice disagree with the extension of Nyara Energy.

You're Faithfully
