Title: Need to check the discharge of polluted water into the Jalangi river in West Bengal from Bangladesh side.

SHRI TAPAS PAUL (KRISHNANAGAR): Jalangi river is a Ganges in Murshidabad and Nadia districts under Krishnanagar constituency in West Bengal. There is regular release of polluted water from Bangladesh. This water is one of the major causes which is causing water pollution in the Jalangi River. The issue needs to be urgently taken up by the government as this is increasing water pollution besides being a cause of many diseases. The pollution in the river also renders the use of water of this river not fit for human consumption. I urge the Government to take suitable steps to check the discharge of pollutants into the jalangi river from Bangladesh side.
