**ORDER**

- 1. The question for consideration is the remedial action against pollution caused by Pharma companies at TSIIC SEZ in Jadcharla, Mahaboob Nagar, Telangana.**

2. *Vide order dated 15.04.2019, a factual and action taken report was sought from the Telangana Pollution Control Board (TPCB).*
3. *Accordingly, report dated 30.07.2019 has been filed to the effect that two industries have been closed and nine industries have been required to comply with the norms. Closure order in respect of the said two industries was later revoked. Again on 27.07.2019, closure order has been passed in respect of three industries and directions have been issued in respect of nine other industries requiring them to send pre-treated effluents for treatment. The report does not show steps taken between 2017 and 2019 though one of the annexures shows that even in the year 2018 closure order was passed.*
4. *In view of the fact that the industrial area in question is a polluted area and the industries in question are 'red category' industries, strict vigilance is required to be maintained for upholding the environmental norms. We also consider it appropriate to require a joint report from the Central Pollution Control Board (CPCB) and the TSPCB after three months. TSPCB will be the nodal agency for compliance. The TSPCB may enforce the principle of 'Polluter Pays' in respect of the units which have been found to be violating the environmental norms or which may be hereafter be found to be doing so. Compliance in this regard may also be included in the next report.*

***A copy of this order be sent to the CPCB and the TSPCB by e-mail for compliance.***
