Dear sir,

Pls save us, the people in irumpanam ,puthiya road area, makaliyam and other near by areas.

The smell from the refinery is so horrible that even adults are falling sick.there was not such problems before , but now after there extension which they are doing near to our residentail area, it has become difficult to live in this area.sir i feel ashmed to say that i leave in this country where the authorities dont care about the normal people.

If possible pls do something.

Regards

Alex George

Sir,

After writing continous mail to all authorities,no step has been taken to stop the pollution from the pet coke plant.we have two young mla's from our area mr.swaraj & mr.anoop,i guess they r not interested in common mans life, now time is 11.45 pm ,13 march 2018, i am trying to sleep but due to bad smell i feel head ache & can't sleep.sir pls thing of our kids,they will fall sick. The management in the refinery i thing they dont care of us.but the kerala government should take care of us.pls let them to shut down the pet coke plant, before we all die.

Respected Sir,

I am writing this mail in order to bring few things into your attention.kindly don't ignore the mail.Sir I am living near puthiya road Junction in Irumpanam. Our main problem these days is the smell coming out from the kochin refinery , due to the new plant which is just near to the residential area.This plant ,a round ball like thing in which people are telling they r storing some kind of carbon items which is very harm full to health & might cause cancer also. Or from the refinery itself because they have new plants inside.Sir my concern is how can they do things like this so near to a place where people live in huge numbers without even thinking of the consequences. Sir if you can help the normal people it will be very helpfull for us.Otherwise the adults it's OK,what about the kids,they will be suffering from all kinds of disease. The common people are protesting against this,but of no use.No political party is ready to take up this issue,I don't why.Sir there are so many ways to do this without harming the people. Now we don't known what we should do.

Kindly help us in this matter

Thanking you  
Alex George
